

JAMBULA DINESH REDDY

+91 7013702447 | jambuladinesh0@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Computer Science (AI/ML) undergraduate with a strong foundation in software engineering, backend development, and machine learning. Skilled in Python, FastAPI, and PostgreSQL, with hands-on experience building, evaluating, and deploying NLP and predictive ML models for real-world applications.

EDUCATION

Rajeev Gandhi Memorial College of Engineering and Technology

B.Tech in Computer Science (AI/ML) — CGPA: 8.46 / 10

Andhra Pradesh, India | 2024 – 2027

Sree Vidyanikethan Engineering College

Diploma in Computer Science — Percentage: 90.4%

Andhra Pradesh, India | 2021 – 2024

TECHNICAL SKILLS

Languages: Python, Java, SQL

AI & ML: Machine Learning, NLP, Scikit-learn, Pandas, NumPy

Backend & APIs: FastAPI, PostgreSQL, SQLAlchemy

Cloud & Tools: AWS Cloud Fundamentals, Git, GitHub, VS Code, Jupyter Notebook

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Debugging

EXPERIENCE

GenAI Virtual Job Simulation — Boston Consulting Group (BCG)

Forage | 2026

- Analyzed 2023–2025 financial data from Microsoft, Tesla, and Apple 10-K filings using Python/pandas and developed a financial chatbot prototype for data-driven responses.

PROJECTS

Explainable Anemia Prediction System

Scikit-learn · SHAP · Streamlit | [GitHub Repo](#)

- Developed a Random Forest diagnostic model on 1,421 clinical records using GridSearchCV and Stratified K-Fold cross-validation, achieving 1.00 ROC-AUC / F1-score across 5 complete blood count (CBC) biomarkers.
- Applied SHAP (SHapley Additive exPlanations) and feature-importance analysis to interpret model predictions, identifying Hemoglobin (mean |SHAP| = 0.385, Gini = 0.825) and Gender as the most influential features for anemia classification.

AI Customer Support Intelligence Platform

Python · FastAPI · React 18 · PostgreSQL | [GitHub Repo](#)

- Engineered an enterprise-grade full-stack AI support platform using Python, FastAPI, React 18, and PostgreSQL to automate customer ticket routing.
- Trained an NLP classification model (TF-IDF + Logistic Regression) on 350+ ticket records across 7 categories, achieving 91.4% accuracy (0.95 precision, 0.92 F1-score) and cutting manual triage time by ~75%.

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Amazon Web Services (AWS) | March 2025
- Oracle Certified AI Foundations Associate — Oracle | Oct 2025

ACHIEVEMENTS

- Solved 150+ data structures and algorithms problems on LeetCode.
- Elite grade, Soft Skills Certification — NPTEL | Jul–Oct 2024
- Elite + Silver grade, Internet of Things Certification — NPTEL | Jan–Apr 2025
